Place each specific type of garbage at the designated collection point **no later than 8:30 a.m. on the designated day**.
Please note that wrongly sorted garbage and any garbage placed out at the incorrect time/day/location will not be collected.
Please check with the community association of your area for the location of the collection point, collection time, and other related information.
(For information on how to contact your area's community association, please inquire at the Citizen's Center.)

Please note that improperly disposing of garbage is considered illegal dumping and is a crime. Illegal dumping offenders can be fined **up to 10 million yen and/or imprisoned for up to 5 years**.

Combustible garbage

To combat global warming

Start with what you can do, little by little

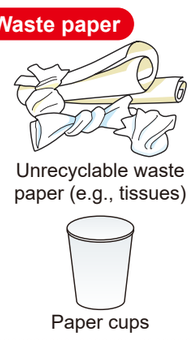
Drain kitchen garbage before disposing of it as combustible waste!

By reducing the volume of combustible waste, the volume of waste to be collected and incinerated will be reduced, ultimately leading to a **reduction in CO_2 emissions**.

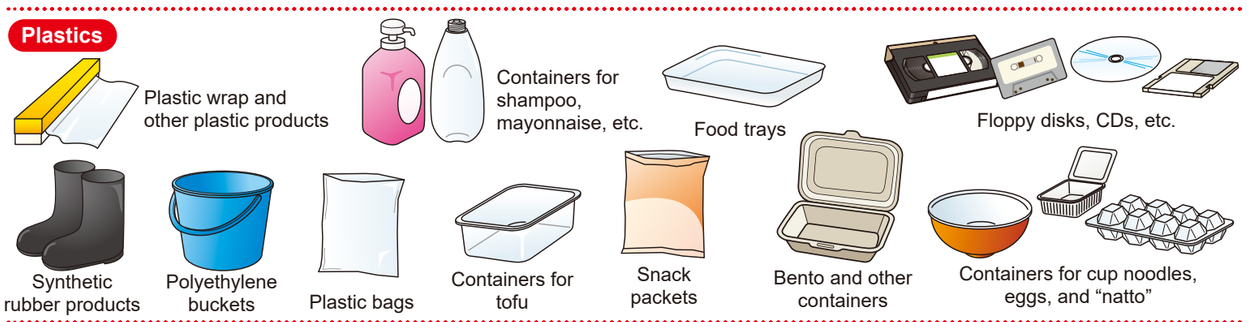
This draining will help save the Earth.

Kitchen garbage

Waste paper



Plastics



Other

For infection prevention
Put used masks, tissue paper, gloves, etc. in a plastic bag, remove the air inside, and tie the mouth.

Dispose of fallen leaves, cut grass, cut leaves, and cut tree branches (each 50 cm or less in length and 5 cm or less in diameter) on the last collection day of the week (e.g., Thursday for Monday and Thursday collection areas, Friday for Tuesday and Friday collection areas).

Any items that need to be collected via the city's paid door-to-door bulk refuse collection service are not accepted at garbage collection points. (Please see reverse side.)
